DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

- I. Claims 1-31, drawn to a method for expanding and obtaining and purifying TcR $\gamma\delta$ + T cells.
 - II. Claims 32-38, drawn to a preparation of enriched TcR $\gamma\delta$ + T cells.
 - III. Claims 39, 40 and 45, drawn to a method of modulating an immune response.
 - IV. Claims 41, 42, 46 and 47, drawn to a method of treating cancer.
 - V. Claim 43, drawn to a method of making a vaccine.
2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The inventive concept that relates all of the groups is enriched TcR $\gamma\delta$ + T cells. However, methods of enriching TcR $\gamma\delta$ + T cells are known in the art. For example, Roark et al. (J. Immun. 1993, Vol. 150, p.4867-4875) teaches that liver TcR $\gamma\delta$ + T-cells can be enriched, and disclose a method for enriching the cells (see "Preparation of Liver Lymphocytes" under Materials and Methods, p. 4868). Therefore, there is no special technical feature linking the claims and restriction is proper.

Art Unit: 1635

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
